# Primary Mastery Specialist Programme

Mastery Specialists are classroom-based practitioners who develop expertise in mastery and in leading maths-specific professional development

## What is involved?

The Mastery Specialist Programme is for primary teachers with a passion for maths. Each year over 100 primary teachers – three or four from each Maths Hub – complete a programme of professional development to become Mastery Specialists. In every subsequent year, each of these teachers leads a Teaching for Mastery Work Group.

Focus throughout the training is on both maths knowledge and practice. Participants will work on developing a deeper understanding of teaching for mastery and reflect on how to support others effectively.

## Who can take part?

This programme is for experienced primary teachers. Participants must be regularly teaching maths to a primary class, and have a passion for teaching for mastery. Excellent communication and a desire to develop skills both in the classroom and in working with others are essential.
