DEVELOP MATHEMATICAL SUBJECT KNOWLEDGE AND UNDERSTAND THE PEDAGOGY THAT UNDERPINS THE TEACHING OF IT

Who can take part?

This is for teachers of GCSE Maths, and for those teaching GCSE Maths resit and/or Functional Skills Maths. Participants may be based in secondary schools, UTCs, FE colleges, Sixth Form colleges, schools with post-16 provision, or other post-16 settings.

What is involved?

This is for teachers whose students will study Level 2 maths across secondary and post-16. Teachers of Years 10 and 11, and of post-16 GCSE Maths resit and/or Functional Skills Maths, will develop ways to support students who need to study maths beyond age 16 to achieve a L2 qualification.

Work Groups will focus on developing transferable teaching techniques aligned to teaching for mastery. Participants will attend three full-day workshops and complete practice-based tasks between sessions.

Benefits

- Your students will demonstrate a positive attitude to maths
- You will ensure that lesson design and pedagogy demonstrate a secure knowledge of curriculum continuity and sequencing
- You will understand the importance of consistency of language and representations relating to specific curriculum areas
- You and your colleagues will make collaboration a normal part of transition, supporting students continuing to work towards a L2 maths qualification

What is the cost?

The programme is fully funded by the Maths Hubs Programme so is **free** to participating schools.
